Notes:
1. Where zone boundaries are shown with dimensions given, dimensions are approximate and intended to begin and or end at center lines of roads, natural features, municipal boundaries, centerlines of railroad rights-of-way (R.O.W.), or Tax Map Parcel (TMP) lot lines as indicated.
2. District Boundaries have been determined at the time of adoption and/or amendments by using the most current tax maps. If a discrepancy exists the Official Zoning Map and/or the Zoning Board of Appeals will be the final determining factor to decide the district boundaries.
